Conference Hall of the Oncology Institute “Prof. Dr. Ion Chiricuța”

<http://www.srrom.ro>

Honorable colleagues,

I have the pleasure to invite you at the XIXth Congress of the Romanian Society of Radiotherapy and Medical Oncology, which will take place in Cluj-Napoca on 22-24th October 2009, at the conference hall of the Oncology Institute “ Prof. Dr. Ion Chiricuța”.

The topic of this edition is represented by the head and neck tumors. We will try to characterize the place of this cancer in respect with its epidemiology, methods of diagnosis and treatment, and therapeutic solutions in the world and in Romania. We live a period of great acquisitions in the biology, diagnosis and treatment of cancer which open the personalized therapy era. On the other hand, it is a period of increased costs of the cancer patient management. The data which will be presented at the congress will open the debate for guidelines and improvement of head and neck tumor management in different oncology services in Romania.

We rely on your dynamic participation for the success of this congress edition.

See you in October at Cluj-Napoca!

Sincerely,

Elisabeta Ciuleanu, PhD
The President of SRRO, 2009
