# **SCIENTIFIC PROGRAMME**

The 27<sup>th</sup> Annual Congress of the Romanian Society for Radiotherapy and Medical Oncology  
together with The 4<sup>th</sup> National Congress of the Romanian Cancer Societies Federation  
19 - 21 OCTOBER 2017  
Grand Hotel Napoca, Cluj-Napoca, ROMANIA

*Foreword*

Dear colleagues,

We have the great honor to invite you to participate in the 27<sup>th</sup> Annual Congress of the Romanian Society of Radiotherapy and Medical Oncology on "PROGRESS IN ONCOLOGY", held together with the 4<sup>th</sup> National Congress of Oncology and Radiotherapy of the Federation of Romanian Cancer Societies. The event will take place between 19<sup>th</sup> and 21<sup>st</sup> of October 2017, at Grand Hotel Napoca, Cluj-Napoca.

The organizers of this congress give you the opportunity of a direct dialogue in order to highlight Romania's progress in oncology and to facilitate communication with other professional societies and associations in this field, both in Romania and abroad.

Sections:

- Epidemiology
- Diagnosis and new technologies
- Treatment
- Legislative framework
- Actualities in targeted molecular therapy
- Sessions for residents
- Sessions for nurses

On the occasion of this scientific event, a postgraduate course will be organized on the topic: 2017 News in Target Molecular Therapy. This course, supported by UMF Iuliu Hațieganu and the Cluj-Napoca Oncology Institute, is realized under the coordination of Prof. Dr. Tudor-Eliade Ciuleanu.

Also, on the 21<sup>st</sup> of October 2017, there will be organized a course for nurses, coordinated by Dr. Claudia Ordeanu. This course will be accredited by the Order of the General Nurses, Midwives and Nurses of Romania.

The participation of each and one of you, as well as the presence of leading personalities in the fields of medical oncology, radiotherapy and surgery, both in the country and abroad, will contribute to the development of future strategies in this area.

The Organizing Committee will make its full contribution to ensure an attractive scientific and social program.

We hope that, together with all our colleagues, who will be involved in this congress, we will be able to achieve a highly scientific event. We think it is good to be together when we talk about modern oncology, when we want to overcome the distance between what we know and what we can offer to our patients.

In particular, during this period of Romanian society, we believe it is good to have a common voice and purpose. We are waiting for you to actively participate and to be with us during the 19<sup>th</sup> -21<sup>st</sup> of October 2017 in Cluj-Napoca.

Sincerely,
