

**The XXVth Annual Congress of the Romanian Society for Radiotherapy and
Medical Oncology**

Multidisciplinary Treatment of Thoracic Tumors

**15th-17th October 2015
Sibiu**

Congress site: <http://www.srrom.ro>

Dear Colleagues,

We are honoured to invite you to the 25th Annual Congress of the Romanian Society for Radiotherapy and Medical Oncology, which will be organized on 15th-17th October 2015, at Hotel Ramada in Sibiu.

The Congress offers a great opportunity of a direct dialogue to emphasize the progress registered on a national and international scale, in a highly dynamic and current field of thoracic tumors, to confront the experiences and exchange information between specialists recognized both in the country and abroad.

At the Congress there will be four postgraduate/for improvement courses: **2015 news in molecular targeted therapy**, „**Target volume delineation for thoracic tumours**”, **Target delineation for pelvic cancers and a Course for Oncology Nurses**.

Besides the scientific interest, the Congress of 2015 is meant to be a reason to meet all the members of the association, from the founders to the newcomers, to celebrate together **the 25 years since the foundation of our society**, an opportunity not only for balance, but also decisions upon the future.

We kindly invite you to this important manifestation of the Romanian oncological community, your support and active participation being essential to the success of the Congress.

**Adrian Moga, MD, PhD
President of RSRMO**

**Prof. Viorica Nagy, PhD
General Secretary of RSRMO**
