In the following I will present the activities in which our Society was implied in the period between October 2012 and October 2013, structured by type of events and ending with the 23rd Annual RSRMO Congress.

1. Partnership/collaboration with other Romanian National Professional Societies:
   - The Second National Congress “Non-infectious Chronic Diseases”, endorsed by the Romanian Academy, Bucharest, 8-9 February 2013;

2. Promoting our Society at international level:
   - RSRMO was represented at the ESTRO National Society Meeting, Geneva, 19 April 2013;
   - also, during the 2nd ESTRO Forum, Geneva, 19-23 April 2013, our Society was permanently promoted through flyers and our “blue” Journal in the National Societies Booth.

3. CME activities: there were three postgraduate courses organized in collaboration with the University of Medicine and Pharmacy “Iuliu Hatieganu” and The Oncology Institute “Ion Chiricuta” with broad addressability:
   - “Radiotherapy Modern Techniques: from theory to practice”, 24-25 May, Cluj-Napoca;
   - “Practical Radiotherapy Course for Technicians”, 25-26 May, Cluj-Napoca;

4. Editorial activities:
   - RSRMO has further sustained the publication of our “Journal of Radiotherapy and Medical Oncology” and the volume 19, supplement dedicated to The 23rd Annual Congress.
   - affiliation with the International Journal “Reports of Practical Oncology and Radiotherapy”, were our Society is represented by a Co-Editor, Members in the Editorial Board, and reviewers.

5. Society structure modification:
   - in 11 December 2012 has been founded “The Radiotherapy and Medical Oncology Resident Group”, as part of RSRMO.

6. Sustaining members for participation in national/international activities:
   - two physicists and one RTT have attended the IAEA Workshop “National Training Course on the implementation of Quality Management Systems in a Radiotherapy Centre”, Bucharest 15-17 May 2013.

7. Organizing the 23rd Annual Congress of RSRMO entitled “Modern Approach in Oncology: from screening to state-of-the-art therapy”, 17-19 October 2013, held at the Grand Hotel Napoca, Cluj-Napoca:
- local partners: University of Medicine and Pharmacy “Iuliu Hatieganu”, The Oncology Institute “Ion Chiricuta”;
- ESTRO Recommended and ESMO Labeled Meeting;
- Congress structure with two new CME postgraduate courses:
  a precongress Course „New discoveries in molecular targeted therapy 2013”, 17 October, and a Course for Oncology Nurses in 19 October 2013.
- general data on the 23rd RSRMO Congress: 333 participants from which 99 residents and 31 students; 52 presented scientific papers; 5 international speakers; 28 partners/ sponsors.

In the end I want to express thanks to all the colleagues and partners that during this period have been actively involved in our Society activities; my gratitude goes especially to the Oncology Institute „hardcore” that has been once again the main promoter and defender of RSRMO.

As the winter holidays are here I wish to all our members Merry Christmas and A Happy New Year!
